## Theology and Action Research Network News and Updates

Dear Friends,

We wish you a happy new year 2025!

As a team, we are looking forward to seeing our network grow in 2025. It is our hope to continue building our network in which we all learn and develop through the many theological action research projects that are starting, ongoing, and concluding this year.

The beauty of theological action research is that it allows a grounding in the lived reality. It is, therefore, important to commit to learning from other theological action research projects and the creativity at play in working and reflecting theologically on the many different lived realities and contexts around us.

At the beginning of this year, we would like to draw your attention to the opportunity of submitting information about your theological action research project, so that it can be shared with others doing such work on our website, as well as through our social media platform, and in our newsletter.

If you are currently involved in working in a theological action research project, in any capacity, or have recently completed a theological action research project, we invite you to tell us about your research via this [Google Form](#). If you have any questions, do write us an email: [tarnetwork1@gmail.com](mailto:tarnetwork1@gmail.com).

We are very much looking forward to receiving more information on your projects!

Best wishes

Clare, Helen, James and Stefanie
